RULE—Equilateral Triangle Method—Divide the number required to the acre "square method" by the decimal .866. The result will be the number of plants required to the acre by this method.

Variety	Feet apart each way
Standard Apples	25 to 30
Standard Pears	20 to 24
Strong-growing Cherries	20 to 24
Duke and Morello Cherries	18 to 20
Standard Plums and Prunes	20 to 24
Peaches and Nectarines	20 to 24
Apriots	24 to 30
Almonds	24 to 30
Walnuts	40 to 50
Grapes	7 to 10
Currants and Gooseberries	4 by 6 feet
Raspberries and Blackberries	3 to 4 by 5 to 7 feet
Strawberries for field culture	1 to 1½ by 4 to 5 feet
Strawberries for garden culture	1 to 2 feet apart

HOUSE AND GARDEN PLANTS

Nurseries and Experiment Grounds:
Fresno, Madera and Tulare Counties

NOTICE. ON ALL ORDERS ACCOMPANIED WITH CASH WE ALLOW
FIVE PER CENT DISCOUNT

Address all communications to Main Office of THE FRESNO NURSERY CO., Inc., direct:

Hughes Hotel Bldg., Fresno, California

P. O. BOX 615

SUGGESTIONS TO BUYERS

1. All orders should be plainly written on a separate sheet of paper and not mixed up in the body of the letter. This prevents confusion in booking orders.

2. When ordering please advise us if substitution will be permitted, as we feel at liberty when no instructions accompany the order to substitute other sorts equally as desirable. In cases where we substitute it is our general rule to send our patrons a better variety than the one ordered.

3. All our stock is well packed and carefully labeled. We make a small charge to cover cost of material used in packing. We make no charge for drayage.

4. Advise us plainly how you wish us to ship—by express, freight or parcels post; also state the route; otherwise we will use our own judgment in forwarding.

5. After we deliver nursery stock to the carriers in good condition we cannot hold ourselves responsible for any loss or injury. All customers are requested to hold on to their shipping receipt, for in many instances it is necessary to file a claim with the railroad company and other carriers for damage or delay in transit, and the original shipping receipt is necessary when filing such claims.

6. All claims for mistakes in filling orders, and also for all stock which may be unsatisfactory upon arrival, must be reported to us within 10 days after receipt of shipment; otherwise we cannot allow same.

7. Parties unknown to us must accompany their orders with a remittance or furnish satisfactory reference.

8. Please remember to write your name, postoffice, county, state, street address or rural route when ordering. This prevents your mail from going astray.

9. Remittances can be made us either by postoffice money order, registered letter, express money order or bank draft. Where parties have a bank account with their local bank we will accept their personal check in payment of any stock they may order, providing, of course, they have ample funds in their local bank to meet payment upon presentation. Many times it is more convenient for our customers to send us a check on their local bank when ordering, for they may live a considerable distance from town, and in remitting in this manner would make it unnecessary for them to go to town for this purpose.

CERTIFICATE OF INSPECTION

Our nurseries are inspected several times each year by the local Horticultural Commissioner, under the direction of the State Commission of Horticulture and Entomology. Every shipment we make is accompanied with a tag of inspection. Aside from this we exercise every care to have our stock free from disease and pests.

Office of Horticultural Commissioner
Fresno, Fresno County, Cal.

To Whom It May Concern:

As Horticultural Inspector of Fresno County, I have always found the Fresno Nursery Co. not only reliable, but the members of this firm exercise every care to have their stock free from disease. Indeed, they would not send out a tree, vine or plant knowing it to be affected in any way. I am assured that all nursery stock sent out they would not hesitate to plant themselves.

F. P. ROULLARD,
Horticultural Inspector, Fresno County, California.

WEIGHTS OF NURSERY STOCK

The general run of deciduous fruit trees, either in bales or cases, average about as follows: 4/6 ft. size, 1½ pounds each; 3/4 ft. size, 1 pound each; 2/3 ft., ½ pound each; grape vines, ⅓ of a pound each.

Citrus trees, balled, packed in boxes, 40 pounds each, and with naked roots, 3 pounds each. Balled palms and other ornamental trees, where the stock is taken up with a ball of earth on roots, average 40 pounds each. Grape cuttings, 14 to 16 inches long, 90 pounds to the thousand cuttings. Eucalyptus trees in flats, 100 plants to the flat, weigh 50 pounds per flat. The weights given above include the weight of packing material used in packing stock for shipment.

In order to determine the approximate freight charges on a shipment, patrons can ascertain freight rates from their local agent from Fresno to their destination (rate per 100 lbs.), and in this way can figure about the cost for transportation charges.

In less than carload lots we make a small charge to cover cost of material used in packing. Where parties order a carload of stock we make no charge for packing. In shipping carloads we pack stock in the cars, which requires no boxing. Sufficient straw and shingle tow is used to keep stock in good condition. Our packing methods are perfect and we exercise every care to protect the interests of our patrons, being anxious to please them in order to merit their future patronage.

SPECIAL QUOTATIONS ON LARGE ORDERS

When you are in the market for a large amount of stock we would be pleased to have you send us an exact list of your wants for quotations. We will cheerfully furnish estimates on large orders and give intending buyers every information in our power regarding the best variety to plant and other data in detail.

A WORD OF CAUTION

Address all orders and make all remittances payable to the firm direct. Pay no money to agents who claim to represent us unless they show a letter of authority. All of our agents carry with them a certificate of agency, and when placing orders with traveling solicitors be sure, if they claim to represent us, to have them show you our authority.
